Parent and Teacher Guide

Studies have proven learning is enhanced through the use of several senses. A recent study shows that we retain 10 percent of what we see, 20 percent of what we hear, and 50 percent of what we see and hear. But when we see, hear and do, we retain 90 percent of the information.

(Lisa Marie Nelson, Ph.D., Author "The Healthy Family Handbook").

The purpose of this Resource & Activity Book is to help children learn and retain the story theme and principles in a fun and educational way. Your children will love coloring pages, solving puzzles, matching games, completing word searches, and much more! Each Resource & Activity Book also features challenging questions and activities for children from preschool through middle school. And in the rare case you don't know an answer, there's an answer key in the back.

LEVEL OF DIFFICULTY

The activities in this book are designed in three levels of difficulty and segregated into two challenging sections. The Level One section of the book contains activities geared towards younger children while the Level Two section contains activities that are more challenging. Each activity also includes a symbol designating the difficulty level of that activity. The activities with one symbol are easy for most children while the two and three symbol activities become increasingly challenging for older children.
